City of Brampton's MedTech Task Force

The goal of the MedTech Task Force is to advance medical innovation in Brampton, including Council's priority for establishing post-secondary medical education and institutional uses benefitting Brampton residents and businesses.

With new and established companies calling Brampton home, and the recent announcement of Toronto Metropolitan University's new medical school – the first new medical school in the GTA in 100 years – Brampton's health sciences sector is on the cusp of an exciting phase of growth.

Brampton stands at the forefront of cybersecurity innovation, proudly home the Rogers Cybersecure Catalyst—a premier national hub for cybersecurity.

Brampton is Located in North America's 3rd Largest Biotechnology Cluster

22,500 people working in the Life Sciences sector in Ontario at more than 1,300 companies that collectively earn \$12.2 billion in revenues annually, with exports totalling \$1.45 billion.

Brampton is part of this Ontario ecosystem and offers access to a community research hospital, clinical trials with a diverse population, a supportive local government, and access to youth and talent.
